

ENVIRONMENTAL ASSESSMENT ANALYSIS CRITERIA

Environmental	Community and Economic	Agricultural	Cultural	Design and Traffic	Sustainability
Floodways & Floodplain	Residences	Prime & Important Farmland	Historic Sites	Right-of-Way	Area of New Pavement
Biologically Significant /Class I Streams	Environmental Justice	Landlocked Parcels	Cemeteries	Termini Connections	Area of New ROW
Main Branch Streams	Businesses	Farmsteads	High Probability Archaeological Sites	Operations	Farmland b/w Alternative & 2035 Land Use
Tributary Streams	Tax Base	Farm Severances		Safety	Farm Tracts b/w Alternative & 2035 Land Use
Private Wells/Wellhead Protection Areas	Public Facilities	Adverse Travel		Topology	ROW within Watershed
Wetlands	Parklands	Farms Otherwise Affected		Drainage Structures	Riparian Areas
Special Waste	Utilities	Owners		Estimated Cost	Highly Erodible Soils
INAI Sites	Utility Infrastructure	Uneconomical Remnants			Bike/Pedestrian Access
Threatened & Endangered Species	Noise Receptors	Centennial/ Sesquicentennial Farms			
Ecologically Sensitive Areas					

- Category 1: No Impacts
- Category 2: Equal Impacts
- Category 3: Varying Impacts
